¹ Minimally processed primal, subprimal, or retail cuts from eligible species such as beef, lamb, pork, venison, and other land-based mammal species are subject to a reduced fee. Acceptable processing types are cutting, washing, packaging or limited aging (dry or wet aging without additives). No other processing types are acceptable for reduced fees ² Testing, if required, must be carried out and paid for by the participant. High-risk ingredient fees are charged per supplier. ³ Mid-Year Products and iterations must be reviewed when submitted and subsequently in the following renewal audit ⁴ Does not include travel fees ⁵ Expedited services guarantee a five business day turnaround for response to inquiries and up to eight hours of documentation review ⁶ Guarantees a two business day report review turnaround and certificate creation (if verified).	
Discounts	
Concurrent enrollment with any other SCS Certification or Verification Program	5% off both programs
Clients previously verified by another Non-GMO Project Technical Administrator	10% off first year
Low-risk, single ingredient	25% off
Discounts apply to annual assessment fees only. Only one discount may be applied per program, per year.
